

New fans for industrial refrigeration

We supply fans with multi-wing impellers tailored for your specific application. We probably have the widest range of impellers in the world. We make sure to find the optimal solution for your duty point focusing on efficiency, low noise level and quality.

Characteristics

- *Diameters: From 250 mm to 1600 mm.*
- *Personalized multi-wing impellers*
- *Motors WEG IE3 IP55 from 11KW.*
- *Bellmouth fan inlet manufactured with high precision.*
- *Customized surface treatments, materials and painting.*
- *Range of temperatures between -50 ° C and 250 ° C.*

Added values

- *High performance and low consumption*
- *Low noise level*
- *High pressure capacity and flow*
- *Interchangeable components*
- *InterComponentes intercambiáveis.*
